

## C. Supplementary terms and conditions for the purchase of lift passes under the “Skiing for All” October campaign by the Gitschberg Jochtal-Brixen consortium\*

For lift passes purchased as part of the “Skiing for All” October initiative promoted by the Gitschberg Jochtal-Brixen consortium, the general T&Cs of Dolomiti Superski and the Gitschberg Jochtal-Brixen consortium apply with the following additions, amendments and/or clarifications.

**1. Pass validity:** the discounted lift pass purchased as part of “Skiing for All” in the month of October becomes non-refundable upon first use. Following its first use, refunds – whether full or partial and for any reason – are expressly excluded.

**2. Lift restrictions enforced by official authorities:** the User expressly acknowledges full awareness and acceptance of and compliance with the current applicable Covid-19 prevention measures enforced by the competent authorities with specific regard to ski lift facilities (e.g. mandatory green pass, and requirements in terms of vaccination and/or testing) as well as ski sports in general. Additionally, the User declares that he/she will also fully accept and comply with any other official measures and requirements to which the use of ski lifts and ski facilities may become subject in the future, and waives any reimbursement claims whatsoever against the operator in the event that the purchased passes cannot be enjoyed as a result of said new regulations.

The no-refund clause under art. 1 of this document also applies in the event that, after purchasing a Gitschberg Jochtal-Brixen season lift pass as part of the “Skiing for All” initiative, the holder disagrees with any of the new provisions enforced with regard to access to the lift facilities.

Holders may receive a reimbursement of the price paid for their skipass under the “Skiing for All” October campaign by the Gitschberg Jochtal-Brixen consortium, only in case of ski accidents or in the event of non-activation, provided that the ownership of the ski pass is unequivocally proven by the person requesting the reimbursement and provided that the holder does not have any insurance coverage that provides even a partial reimbursement of the ski pass price in the event of an accident. Partial reimbursement will be limited to the days following the day of reimbursement request and restitution of the skipasses at the central points of sale. Therefore, daily as well as intra-day skipasses cannot be reimbursed. Applications for reimbursement are to be presented at the central sales offices within 15 (fifteen) days from the accident or, in case of hospitalization, from discharge, together with the following documents:

-the physical skipass;

-a copy of the accident report issued by the ski facility first-aid operators or a medical certificate (issued by a doctor practicing - on a regular basis - in the Dolomiti Superski area, by a public local facility or by the hospital to which the patient was taken to), attesting that the one suffered was actually a skiing accident, preventing the patient from continuing any further practice of sports activities.

Individuals accompanying the injured holder are not entitled to apply for reimbursement. For multi-day skipasses the reimbursement will be calculated by subtracting from the purchased ticket's price the amount charged for a same skipass type having a duration equal to the period from validity's beginning of the original skipass to the day of original pass' return and of filling in of the reimbursement application (included). All-season skipasses will be reimbursed by dividing the purchased price by 10 (ten) – being such figure based on the assumption that, according to ordinary habits, the card holders will be using the pass for 10 skiing days - and by multiplying the average daily price obtained with the number of not used days, until reaching the maximum of the 10 skiing days. Thus, all-season skipasses already used for at least 10 days will not entitle their holders to apply for reimbursement.

In the event of non-activation, a processing fee of 25€ applies for each season pass refunded, regardless of the category. Refunds must be requested by submitting the form provided for this purpose. Non-activated passes cannot be replaced with other lift passes. No processing fees apply in the event of refund due to a skiing accident.

**3. Updated data pursuant to Covid-19 regulations:** in view of the fast-evolving epidemiological and legislative situation, applicable regulations regarding the use of lift facilities may change in the period between the purchase and the first time the pass is used. Therefore, validity of the holder's green pass may have to be checked before the lift pass can be activated and used – at no extra cost for the holder. Should the holder not comply with the legal requirements for transportation, he/she is entitled to withdraw from the purchase contract and be refunded the pass purchase price, as long as the pass has not been used.
